

The Middletown Garden Club

invites you to an

Open Meeting

Creating a Pollinator Pathway

Saturday, October 23, 11 AM

General Mansfield House

151 Main Street, Middletown

Come learn how you can become part of a movement to create safe places for our pollinating insects.

Jackie Algon, a founding member of the Northeast Pollinator Pathway project, will be our featured speaker. She will share her expertise and experience on making our yards, neighborhoods, and public spaces a welcoming place for butterflies, bees, and birds.

There will be a Q&A time, resources to share, and a chance to network with others who want to be part of this effort.

A limited number of chairs will be available but you are encouraged to bring your own.

This event will be held outdoors (under cover in the event of light rain) in the gardens

behind the building. Please check the website ([https://middletownpollinat.wixsite.com/](https://middletownpollinat.wixsite.com/website)

website) or the Garden Club website (MiddletownGardenClub.com) on Friday evening

for any updates due to inclement weather. Any questions please call Kathy Meyering at

860-306-8494.
